

Hope Air

Hope Air is the national charity that helps Canadians get to medical treatment when they cannot afford the flight costs. Since 1986, we are proud to have arranged more than 56,000 flights.

Hope Air is supported by many of Canada's [national and regional airlines](#) who donate seats, plus hundreds of Volunteer Pilots who contribute their time and aircraft. We thank them for their generous contributions.

Request a Flight

Hope Air accepts flight requests from Canadians of all ages and illness groups residing in Canada. Since 1986, we've helped thousands of people just like you to fly healthcare resources across the country.

Hope Air is not an air ambulance service: other organizations exist to handle emergencies. If you have a scheduled medical appointment, simply call the National Office at 1-877-346-4673 or complete the flight request form available on line at:
